Reference these Headquarters No. B/27994/A.G.3, dated 1st July 1935.

The intention was that all Army in India Reserve of Officers should be medically examined immediately before commencing their annual training.

The medical examination will normally be carried out at the station at which the officers are to train.

2. In the case of officers, resident at some distance from their training station, who do not wish to chance the possibility of being found unfit on being examined there, sanction is accorded to the adoption of one of the following alternatives:-

(a) Medical examination to be carried out at some military station adjacent to the officer's residence.

(b) Medical examination to be carried out by any fully qualified medical practitioner.

The adoption of either of these alternatives will be subject to the discretion of the District or Independent Brigade Commander concerned, but in neither case will any additional expense to the State be incurred.

Sd. D.M.King,
Colonel, for
Adjutant General in India.

---:0:---

Memorandum from the Adjutant General in India to Headquarters, Burma Independent District, Simla, No.B/27994/A.G.3, dated the 1st July 1935.

The proposal outlined in your No. 7232/7/A.T.F., dated 13th May 1935 is in order and is agreed to.

2. In future an officer of Class "A" of the Army in India Reserve of Officers will be required to be medically examined as to his fitness for service before commencing his period of training, and no officer will be permitted to commence his training until he is certified as "fit for service".

3. If, as a result of the above examination, it is considered necessary to admit an officer to a military hospital

for

(6

for treatment, the procedure outlined in paragraph 57, Regulations for the Army Reserve of Officers, 1934, will be followed.

4. During the period an officer is undergoing treatment in the above circumstances, military pay and allowances will not be admissible.
